

Facts Without Fancies!

ALL persons indebted to the late firm of HILLS & MAJOR, for subscriptions to the Freeman or Job work, are requested to come forward and make immediate settlement, and those having claims against us will present them for adjustment. Partnership was dissolved on the 1st of last January, but through the negligence of our patrons, we have been unable to wind up our business or make a settlement between ourselves, and we hope all that owe us will come forward now and pay up, or remit, to us by mail the amount of their debts, at our risk, by a compliance with this request they will spare us the expense, trouble, and delay of placing our accounts in the hands of collectors and others.

TRAVEL ON THE PACIFIC COAST.—The latest California news contains some exciting political matters. A French Consul has been held down the flag of his office and is in a terrible way, on account of what he thinks an insult to him and his nation. The facts of the case are about these: Some time ago a Mexican Consul was engaged in enlisting men for an expedition upon Sonora. For this misdemeanor he was arrested, tried, and convicted by the United States Court then sitting at San Francisco. The prosecution invited the French Consul, M. Dillon, (the same gentleman who created a disturbance in the Sandwich Islands some time since,) to testify as to his knowledge of the action of the Mexican Consul. The French Consul did not appear, and a second invitation was sent to him, with a like result. The United States Marshal then proceeded to the consular residence, and arrested M. Dillon. The Consul stated that he would go by another street, and meet the Marshal at the court room. The Marshal refused to allow him his privilege, and said that he intended to take him to the court room dead or alive. M. Dillon accompanied the Marshal alive, and, returning from the court, he struck his flag, declining to act again as Consul for France until he received instructions from the Emperor. M. Dillon being Sardinian Consul, transferred the powers of the French consulate to himself, and now uses the consular seal of Sardinia in transacting business, which properly belongs to the French Consul. He was arrested on the ground that every consul person has a right to compel the attendance of such witnesses as he may deem important to his case; and as after the first invitation to M. Dillon the prosecution abandoned the matter, the defense took it up, and made affidavit that M. Dillon's evidence was important, the federal authorities had a right to compel M. Dillon to testify, or at least to use force to ensure his attendance. M. Dillon, however, holds that under existing treaties between France and the United States, his attendance could not be compelled, and that the federal authorities had only power to invite it.

FATHER AND DAUGHTER DROWNED.—We learn from the Irish News that Mr. Chas. Borden and his eldest daughter were drowned in the south branch of Hagan's creek on Sunday morning last. Six of the family had started to church, and, in attempting to ford the stream, which had been swollen by a heavy rain during the night previous, the father and daughter lost their lives. An infant child was one of the company, but, strange to say, it was rescued from a watery grave by the hand of its mother. The bodies of the deceased were recovered several hours after the occurrence.

WE learn from the New York Evening Post that the administration have sent down a secret commissioner to St. Domingo, (the republican end of the island of Hayti,) to sound the officials of that country upon the policy of annexation to the United States—that the object of this enterprise is to secure that island to the South as another slaveholding State, and that the resolution lately offered by Mr. Douglas in the Senate, at Washington, proposing an inquiry into the expediency of recognizing the independence of the republic of Dominica, and the opening of diplomatic intercourse with the same.

WE are indebted to the publisher for the May number of the Western Democratic Review, adorned with an engraving of the Indiana Hospital for the Insane, and replete with political and literary essays of a high order of merit. The editor sustains his self authority in each successive number, and the spirit of former numbers is no wise abated in this. We wish it the most abundant success.

Published at Indianapolis, Indiana.—George P. Ball, Editor.—Price \$3 per annum in advance.

The Parlor Visitor, an elegant little periodical, of 32 pages each number, published monthly at Nashville, Tenn., at the low price of \$1 a year has come to hand. The June number is a gem. W. P. Jones, editor.

The Elphese on Friday was a decided failure. We had expected something of a show, and as the Almanac and papers had said nothing of clouds, did not take the precaution of furnishing ourselves with a "nightgown"—smoked glass, we soon ascertained, wouldn't do, and our "front seat" was useless. We doubt not, however, that it was a very creditable affair if it could have been seen.

WE are indebted to our ever attentive friend, R. H. How, Fourth street, Louisville, for Appleton's edition of the trial of Matt. Ward. It is a book which will be read with interest by all in Kentucky, and eagerly sought after, not only for the fine speeches it contains, but for the facts in this exciting case of homicide. How & Wilson have it for sale.

WE are indebted to our ever attentive friend, T. P. Pierson for a twist of the best tobacco we have had the pleasure of chewing for some time. It is really a first rate article, perhaps the best in town, and we recommend it to all lovers of the plant. As will be seen by reference to our advertising column, soda and ice cream, the two greatest delicacies of the summer season can be had a perfection, at Pierson's establishment. We recommend both.

A man named Thos. Wrel, about five feet 10 inches high; freckled face, and red hair, was drowned at Frankfort May 22nd, 1854. He was from Templemore, Tipperary county, Ireland, and is thought to have relatives in some part of Illinois.

THE WESTMINSTER REVIEW for April is an excellent number with the following table of contents:

Results of the Census of 1851;
Archbishop Whately on Christianity;
Criminal legislation and Prison Discipline;
Lord Campbell as a writer of History, Schamyl, the Prophet Warrior of the Caucasus;
Thomas de Quincy and his Works;
The Balance of power in Europe;
Contemporary Literature.

We find this periodical, the organ of the Liberal party in England, always interesting and instructive. Literature and politics are interwoven in the most attractive and agreeable style, and this together with the other British Quarterlies, and famous old Blackwood, should be in the hands of every reader. They are offered at such moderate terms, and in the present unsettled state of Europe, are so indispensable to a correct understanding of the causes and progress, the nature and tendency of mighty events, now at work there to change the face of that continent and affect the destiny of a great portion of the human race, that we wonder that all, who can afford it, are not subscribers to them.

Republished by Leonard Scott & Co., No. 79, Fulton street, New York.

Terms—For one Review, \$3 a year; for Two, \$5; for Three, \$7; for the Four, \$8; Blackwood's Magazine, \$3; Blackwood and the Four Reviews, \$10.

NEW YORK HERALD.—On and after Monday next, the price of the New York Herald will be increased to three cents per copy. The editor says he has been induced to take this step in consequence of the great increase in the cost of paper, presses, type, materials and labor of all kinds, which has taken place during the last few years. With the increased price, he will be enabled to expand, in addition to his present expenses \$50,000 or \$60,000 a year on improvements in his establishment, embracing new fast presses, capable of printing 20,000 copies per hour—and also in enlarging the circle of his writers and correspondents, extending to the seat of the great war in Eastern Europe and Asia Minor, to an extent hitherto unknown in the history of American journalism.

WOMEN'S RIGHTS.—The following paragraph appears in a Buffalo print.

"The Geneva Courier notices the appearance in that village of a strong-minded, strong-backed, and, of course, strong-minded woman in charge of a canal boat, of which she is owner and captain. She is of German origin and manages her craft with ability."

Here is an example for the 'strong-minded' women to follow. If Lucy Stone, Antoinette Brown, and others of that ilk, sincerely believe that 'woman's sphere' in this country is too contracted, why don't they do as this German woman is doing—hold their tongues, and go to work? No one will oppose such a movement on their part.

BLASPHEMY OF ABOLITIONISM.—At the recent anniversary meeting at New York of the American Anti-Slavery Society, held in a church, a Mr. H. C. Wright gave utterance to the following atrocious sentiments, which were received with much applause:

"This country denies God, or if it believes in God I do not. The Christian's God, as I think often, is the most accursed of demons. According to the common acceptance of the term Jesus Christ was nothing but a hypocrite. No man's rights can be ascertained by reference to a Bible, a law, or a constitution. I don't care that (snapping his fingers) for any such book or constitution, when the question of liberty or slavery is to be considered. The only thing of importance is, that the mass of the people venerate the constitution. We should endeavor to do away with this. I thank God that I am a traitor to that constitution. I thank God also that I am an infidel to the popular religion of the country and of all Christendom."

Hon. John B. Thompson, our attentive Senator, has our thanks for Congressional favors. We are indebted to him for a good supply of interesting public documents.

WASHINGTON, May 25.
SENATE.—Mr. G. H. Smith, Senator elect from Connecticut, in place of Mr. Smith, resigned, appeared and was sworn in.

Mr. Clayton, from the Committee on Foreign Relations, reported back the joint resolution requesting the President to present a gold medal to the officers of the British ship, and the sum of \$100 to each man of the boat's crew of that vessel who rescued Lieut. Strain, of the survey party.

The Nebraska bill was resumed from yesterday.

Mr. Bell continued the speech commenced yesterday, against the bill, and rebuked Mr. Toombs for personal remarks made yesterday.

Mr. Bell was very severe on Mr. Balger for undertaking to commit him for the bill. He said he never attended the meeting of the Southern Whig Senators, which authorized Mr. Balger to say that all of the Southern Whig Senators were for the bill.

He had never said he would sustain the bill, but continued his friends frequently not to rely upon him; and he had never talked to Mr. Balger on the subject. He said no one liked the Nebraska bill. He sympathized with the deep agony in his footsteps. He charged the Nebraska men with a conspiracy, by which Mr. Churchill was to attack him in the House, and assault to be made on him in the Senate.

The statement that he had declared himself in favor of the Nebraska bill was false, wherever it was from.

Mr. Danbar presented the resolution passed by the Louisiana Legislature relative to Africanizing Cuba.

Mr. Orr asked leave to present the proceedings of a public meeting held in North Carolina, in regard to the imprisonment of Capt. Gibson.

Mr. Knox objected.

HOUSE.—The House went into committee of the whole on the consideration of the Pacific Railroad bill, which was again postponed and the bill was resumed.

A number of amendments were debated, and the one increasing the salary of the Mail Agent of California to \$5,000 was rejected.

BUFFALO, May 25.
Since our last report the assembly has been mainly employed in considering the judiciary case involving the right of a church to strike from its lists elders refusing to have their children baptized. The argument was not concluded when the hour arrived for hearing the report of the board of publication. The board have circulated 38,000 books and 26,000 tracts during the year. The value of the books distributed is \$136,000. The receipts have increased over the previous year \$12,000. The balance remaining in the Treasury is \$18,000. The board of Domestic Mission reported in favor of building a church at Washington, and recommended the collection of \$50,000 to \$100,000—adopted.

The report regarding the Danville Seminary came up, when a warm personal debate commenced.

Dr. McManis of Va., attacked bitterly the action of the committee at the last general assembly, charging that they had improperly suppressed information before them, and induced the assembly to adopt a report which otherwise would not have been adopted.

The fight is between the Danville and New Albany Seminaries.

Dr. Breckinridge appeared, and a warm time is anticipated.

AS A SPRING AND SUMMER MEDICINE, Carter's Spanish Mixture stands pre-eminent above all others. Its singularly efficacious action on the blood; its strengthening and vivifying qualities; its tonic action on the Liver; its tendency to drive all humors to the surface, thereby cleaning the system according to Nature's own prescription; its harmless, and at the same time extraordinarily good effects, and the number of cures testified to by many of the most respectable citizens of Richmond, Va., and elsewhere, must be conclusive evidence that there is no humbug about it.

The trial of a single bottle will satisfy the most sceptical of its benefits.

It is an undisputed fact that Holloway's Ointment is the only one which is in its effect infallible. Cases that the most eminent medical practitioners have despaired of relieving, immediately yield to its curative powers, and when used in accordance with the printed directions, which accompany each pot, with Holloway's Pills, the two combined thoroughly eradicate the most pestiferous diseases, and leave the sufferer without a blemish.

ASHLAND.

Great Sale of Lots in the Town of ASHLAND, KY.

THE Kentucky Iron, Coal and Manufacturing Company, will make their first sale of town lots in the town of Ashland, on Wednesday, the 14th of June, next. Ashland is located in Greenup county, Kentucky, immediately on the Ohio River, at the point where the Lexington and Big Sandy Railroad, first strikes the valley of the Ohio, about five miles below the mouth of Big Sandy River. The location is one of peculiar beauty, and admirably adapted to the building up of a fine city. The river front is fully three miles, and the width nearly a mile. Natural terraces, entirely above the highest known floods, nearly equidistant and parallel with the river, run through the whole bottom, rising in gentle succession above each other, and serve as natural avenues which produce a panorama of striking beauty. A finer landing for steamers of the largest class, at any stage of water, cannot be found on the Ohio River.

Under a corps of competent engineers, Ashland has been laid out with reference to all the wants of a large city; with wide streets, an extensive park, squares for market places, schools, churches, etc., and in fact with every advantage which considerations of utility or taste would suggest.

One great purpose of the Company is to aid and assist in building up Ashland into a large manufacturing town, and to make it the seat and centre of trade, which its central position with regard to the great Iron and Coal region of Kentucky and Ohio should and must eventually command. The Company already own about two thousand acres of real estate, one half of which is river bottom, and the other consisting of Coal and Iron lands of the best quality, out of which they have resolved to make the most liberal donations both of sites and coal to respectable companies desirous of engaging in manufacturing.

There are two seams of bituminous coal of superior quality, about 4 feet in thickness each, so that great elements of manufacturing can be furnished at this point at the very cheapest rate, together with being in the centre of the Pig Iron market, induces the Company to believe that, at no point can the manufactures of Iron in its various departments be more successfully

ADVERTISEMENTS.
Proposals with Plans, &c., to enclose the Public Square at Frankfort, Ky., with a substantial Iron Fence.

AN ACT TO INCLOSE THE PUBLIC SQUARE IN THE TOWN OF FRANKFORT.
§ 1. Be it enacted by the General Assembly of the Commonwealth of Kentucky, That the governor and secretary of state be and they are hereby appointed commissioners, and are authorized to advertise in such papers as they may deem necessary, for sealed proposals, with plans, for inclosing the public square in the town of Frankfort with a good and substantial iron fence; and they are further authorized to make the necessary contracts and take bond and security for the completion of the same: Provided, that no contract shall be made, or any plan adopted, that will in the aggregate, ever cost more than eight thousand dollars.

§ 2. That whenever said fence may be completed according to the contract made by said commissioners, the governor is hereby authorized to draw his order and direct the auditor of public accounts to issue his warrant for the amount of the same, on the treasurer, who shall pay said warrant out of any money in the treasury not otherwise appropriated.

[Approved March 3, 1854.]

In pursuance with the above law, we will receive sealed proposals, with plans, specifications, &c., for enclosing the Public Square in the town of Frankfort with a substantial iron fence. The length of the fence will be nine hundred and ninety-four (994) lineal feet. The proposals, with plans, specifications, &c., must be sealed and directed to the Secretary of State, endorsed "Proposals for Fence," which will be opened on Thursday, the 1st day of June, 1854, at 11 o'clock, A. M.

WINE COOLERS. These are again at hand when the use of ice becomes indispensable to the comfort and health of every family.

The undersigned has for several years past been engaged in the manufacture of the above named water coolers, and has had much time and labor in perfecting them. Knowing their great utility, economy and convenience, must bring them into general use. They have been introduced into the market, and have been found to be the most perfect of any of the designs which have been heretofore introduced. They are now being manufactured in large quantities, and are being sent to all parts of the country, and are now being sent to all parts of the country, and are now being sent to all parts of the country.

WINE COOLERS. These are again at hand when the use of ice becomes indispensable to the comfort and health of every family.

The undersigned has for several years past been engaged in the manufacture of the above named water coolers, and has had much time and labor in perfecting them. Knowing their great utility, economy and convenience, must bring them into general use. They have been introduced into the market, and have been found to be the most perfect of any of the designs which have been heretofore introduced. They are now being manufactured in large quantities, and are being sent to all parts of the country, and are now being sent to all parts of the country.

REMOVAL!

HEMING & QUIN

HAVE removed their Coach Factory to the building adjoining the Methodist Church, where they continue to keep constantly on hand a fine assortment of COACHES, and would be pleased to receive a continuance of the patronage of their old customers, and the public generally. All work made to order warranted for one year.

April 11, 1854.—155.

REMOVAL!

DR. C. M. JACKSON,

No. 120 Arch street Philadelphia.

The powers over the above diseases is not exceeded, if equalled, by any other preparation in the United States as the cure of, in many cases after skillful physicians have failed.

These Bitters are worthy the attention of invalids, Possessing great virtues in the rectification of diseases of the Liver and Gall Bladder, exerting the most searching powers in weakness and affections of the digestive organs, they are, without sale, certain and pleasant.

READ AND BE CONVINCED.
